Existing Home Sales Highest Since 2007

Sales of existing homes surged in March to a seasonally adjusted annual rate of 5.71 million, rising 4.4 percent from an unexpected decline in February, and reaching the highest level in nearly ten years. The National Association of Realtors said the gains were shared by both single-family and condo sales. Tight inventories meant shortened marketing times. Three of the four regions had higher sales with only the West posting a slight decrease.
