As interest rates rise, the composition of applications continues to gradually change. The **refinance share** of total applications declined for the fourth consecutive week. It is at the lowest level since last July at 46.4 percent, down from 47.8 percent the week before. The share of applications that were for adjustable rate mortgages (ARMs) increased to 6.1 percent of total applications after hitting a 14-month low of 5.0 percent during the week ended January 5.

FHA loans had a 10.4 percent share of the applications submitted during the week, down from 10.7 percent the previous week and the USDA portion dipped to 0.7 percent from 0.8 percent. The VA share was unchanged at 10.1 percent.

Significant increases in interest **rates** during the week affected both contract and effective quotes for fixed rate mortgage products. The average contract interest rate for 30-year fixed-rate mortgages (FRM) with conforming loan balances of \$453,100 or less reached the highest level since April 2014, 4.50 percent, up from 4.41 percent a week earlier.
