A Message from BRETON MACDONALD:

"Rates are headed up Quickly!"

ALERT: Negative Reprices Becoming More Likely

Attention is turning the the 3-day weekend with risk of a CPI beat on the other side. Traders are getting out ahead of the expected illiquidity of tomorrow's session. Fannie 4.0 MBS are down nearly a quarter point from some lenders' rate sheet print times. As such, negative reprices are becoming more likely for the early/aggressive lenders, and "possible" for other lenders.
