Mortgage Apps Find Little Inspiration in Low Rates

In a week when rates continued holding near multi-year lows, mortgage application activity increased, but the gain during the week ended April 15 was minimal, **especially** compared to the strong numbers a week earlier. Unsurprisingly, refinance demand continued to do the heavy lifting. Purchase mortgage applications, which had surged during the week ended April 8, dropped again into negative territory.

The Mortgage Bankers Association (MBA) said its Market Composite Index, a measure of mortgage application volume, was **up 1.3 percent** on a seasonally adjusted basis from the week before and rose 2.0 percent on an unadjusted basis. The Refinance Index was up 3 percent and applications for refinancing made up 55.4 percent of all applications received compared to a 54.9 percent share the previous week.

The **seasonally adjusted Purchase Index** retreated 1 percent but was 1 percent higher on an unadjusted basis and was 17 percent higher than during the same week in 2015.

Of total applications 10.6 percent were for **FHA backed** loans, down from 10.8 percent the previous week. The VA share increased to 12.6 percent from 11.9 percent and the USDA share was unchanged at 0.8 percent.

Rate changes were mostly small but in two cases decreases drove products to **three-year lows**. The average contract interest rate for 30-year fixed-rate mortgages (FRM) with conforming loan balances (\$417,000 or less) ticked up one basis point and points rose from 0.32 to 0.33. The effective rate was also up.

Jumbo 30-year FRM (loan balances greater than \$417,000) had an average rate of 3.77 percent, up from the previous 3.74 percent. Points dropped to 0.25 from 0.31 but the effective rate was still higher than a week earlier.
