## A Message from Matt Graham:

"Here come the reprices. (So yeah... whatever your lender quoted you yesterday probably doesn't exist today)"

## ALERT: If you haven't seen a reprice yet, you probably will

Just in case it's not obvious from the past two alerts or the ongoing sell-off in bond markets, reprice risk is elevated. It's more elevated in the past few minutes as bond prices have plumbed new lows. Fannie 3.5s are now down half a point on the day at 102-06 and almost any lender is looking at a quarter point of weakness from rate sheet print times. For most, that's sufficient for reprices.
