Freddie Mac Expands LTV Ratios for Super Conforming Mortgages

Freddie Mac is announcing changes to its *Single-Family Seller/Servicer Guide* which the company says will provide **expanded homeownership opportunities** which the company says will provide expanded homeownership opportunities for some borrowers, especially those in designated high-cost areas. The changes, it says, will also streamline the underwriting process.

The principal change, effective for mortgages with settlement dates on or after March 28, will **revise loan-to-value requirements** (LTV), total LTV (TLTV) and Home Equity Lines of Credit LTV (HLTV) ratios for super conforming mortgages and 1-unit investment property mortgages.

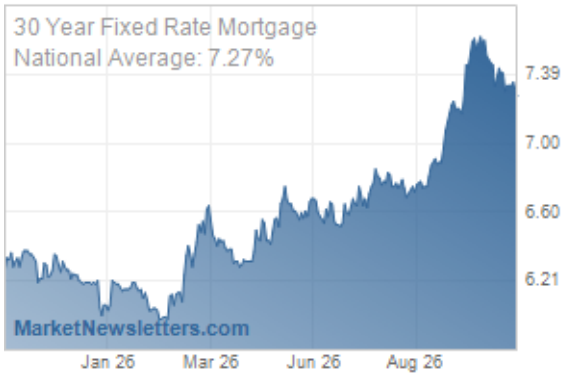

The three LTV measures above will be **expanded** for super conforming mortgages to align with those ratios subject to base conforming loan limits. The required minimum Indicator Scores for Manually Underwritten super conforming mortgages will also be aligned with those subject to base loan limits.

For mortgages secured by **1-unit investment properties** the eligible LTV ratios will be aligned for purchase mortgages and no-cash-out refinances. The company said these expanded ratios will provide borrowers with greater ability to refinance into improved rate and term mortgages without the need to establish additional equity.

A second change to the Guide affects master or **blanket insurance policies** on condominium projects and planned unit developments (PUD). The revision will prohibit the sale of mortgages on such properties with an insurance policy that combines coverages for multiple unaffiliated projects or PUDs. The change also alters terms of required insurance coverage for employee dishonesty.

Bulletin 2016-3 containing full information on these changes can be read here.
