One Price Index Shows Long-Expected Price Slowdown

Black Knight Financial Services released its Home Price Index (HPI) report for July on Monday and, unlike reports from CoreLogic and the Federal Housing Finance Agency (FHFA) reports for the month (the fourth report, the CoreLogic Case-Shiller indices is due out on Tuesday) it shows a **distinct slowing in the pace of price appreciation** over the past few months.

Black Knight reports its national index for July was \$266,000. This is 0.4 percent higher than its index for June and up 5.3 percent compared to August 2015. The month over month increase in May was 1.1 percent, **declining** to 0.8 percent in June. FHFA showed a pickup in the appreciation rate month-over-month and annually in both June and July while CoreLogic showed a 0.3 increase in the annual appreciation rate in July.
