ALERT: Additional Weakness and Possible Reprice Risk (Chart)

Take the current sell-off seriously. Bonds are breaking well outside their recent range, and a whole host of technical indicators suggests a defensive stance in response to this shift. Stay defensive until further notice.

Fannie 3.5s are down a quarter point on the day, and some lenders are looking at more than an eighth of a point of weakness from morning rate sheet print times. As such, negative reprices are already a possibility.
