# Don't Believe Everything You Read About Rates

For decades now, Freddie Mac has been publishing its weekly Primary Mortgage Market Survey, which has become the definitive benchmark for mortgage rates. It's used not only by the secondary mortgage market to compare average rates to other sectors of the bond market, but also by just about every major media outlet.

That means Freddie sends out a press release on Thursday morning and within an hour or two, **hundreds of websites** as well as the big news networks are using slightly different words to say whatever Freddie just said. Chances are, if you see or hear news about rates going up or down, this is the source, and that's **terribly unfortunate**.

It's not unfortunate because the data is bad. Actually, the data is quite good—every bit as definitive as its prolific spread would suggest. The **problem** is that most of the audience that consumes the data does NOT understand exactly what it means. When we see headlines like:

- 30-year mortgage rates dip to 3.76% -OC Register
- Mortgage rates largely unchanged as Fed stands pat -Washington Post
- Average US Rate on 30-Year Mortgage Slips to 3.76 Percent ABC
- Mortgage rates edge lower Chicago Tribune
- Fixed Mortgage Rates Little Changed, Nudge Lower Market Watch
- Mortgage rates fall again this week Washington Business Journal

We'd be well within our right to conclude that rates **actually did** what these headlines say they did. Considering these headlines all came out on Thursday morning, we could be forgiven for thinking rates are lower on Thursday morning.

#### But we'd all be very wrong.

Freddie's data—while perfectly accurate—is based on survey responses that arrive mostly on Mondays and Tuesdays. Furthermore, the Freddie survey **never includes Thursday or Friday rates**. Freddie's goal is NOT to serve as the fodder for all of the misleading headlines above. Its goal is simple to capture the week over week movement in rates in the long run.

## National Average Mortgage Rates

	Rate	Change	Points
Mortgage News			
30 Yr. Fixed	7.43%	-0.02	0.00
15 Yr. Fixed	6.85%	-0.01	0.00

Unfortunately, the media leans on the release as a timely update on rates. This creates confusion when consumers tell their mortgage brokers "hey, I heard rates went down this week!"—especially on a day like today when mortgage rates are as high as they've been in a month!

Again, keep in mind that Freddie averages the 3 days of survey responses and that most are in by Tuesday. Then consider that the Fed announcement occurs on Wednesday afternoon. It's a perfect recipe for a very misleading mortgage rate headline as the Fed comes in to potentially create significant movement in rates RIGHT as the movement in rates will no longer be captured in Freddie's data—at least not until the following week.

This week's Fed announcement was a classic example. The Fed surprised more than a few market participants by getting rid of their recently-added warning on global financial developments and by specifically mentioning a potential rate hike at the next meeting. While mortgage rates won't necessarily be swayed in the long run, there tends to be short term correlation between rates and Fed rate hike prospects. Since this announcement greatly accelerated rate hike odds, rates have jumped over the past 2 days. If someone tells you otherwise, quoting one of the many Freddie-inspired headlines, please let them know as nicely as you can.

In addition to the somewhat precipitous changes in rates, this week also provided some abrupt changes in Housing Data. Most notably, New Home Sales tumbled 11.5 percent. Analysts had been expecting a relatively flat reading. Combined with a significant revision to the previous month, this brings New Home Sales back in line with a flat trend for the year.

In a similar vein, Pending Home Sales unexpectedly fell 2.3 percent versus a median forecast calling for a 1.0 percent gain. These are notable reversals considering the topic of last week's newsletter was the strong performance of housing data relative to the rest of the economy.

# All Your Mortgage Needs, Professionally Delivered with a Personal Touch

Whether you're a first-time homebuyer hoping to navigate the process of buying a home so that it is a fun and anxiety-free process or a homeowner looking for refinance options that deliver more freedom and flexibility, I can help you analyze your current situation and find money saving options. With expertise in all areas of mortgage and financing, my hope is that once I become your mortgage partner, I'll stay your mortgage partner. With clients from A to Z, files never leave my hands or my desk. From start to finish, every step of the way, my goal is to keep the lines of communication open, provide complete and attentive service, and ensure the most seamless and satisfactory process possible.

Kevin Litwicki - NMLS # 289959
